### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ralph Dowell on July 11, 2007.

The application has been amended as follows:

1. In line 1 of claim 11, delete ", for example,".

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figures 1a and 1b should be designated by a legend such as --Prior Art--. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

All claims pending thus being allowable, prosecution on the merits is closed in this application. A statement of the examiner's reasons for allowance is provided in the paragraphs, which follow below.

### **REASONS FOR ALLOWANCE**

Claims 1-8 are allowed.

The instant application is deemed to be directed to a nonobvious improvement over the invention of Beiser (U.S. 5,114,217), as being a representative example in the art to which the instant invention pertains. In particular, the improvement and primary reason for allowance for the device, which converts light to a plane of propagation, is directed to the limitation wherein the double reflecting component is rotationally symmetric and is fixedly provided coaxially in the path of beams and, which in the examiner's opinion, would not have been obvious to one of ordinary skill in the art.

The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of applicant's independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The claimed invention is therefore considered to be in condition for allowance as being novel and nonobvious over prior art.

### OTHER REMARKS/INFORMATION

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
